OFFER**

20 Iris all different and the two extra ones shown in color for only \$2

Prepaid

Madam Gaudichau and *Ambassadeur*,

the Iris shown on the first page of this folder, in natural colors, are easily the two outstanding varieties today. They are huge in size and grow upon tall graceful stems.

These two magnificent Iris are typical of twenty other beauties I am offering at the sensational price of \$2, prepaid. This is positively the biggest Iris offer that has ever been sent out under the name of Kunderd. It is an extraordinary bargain which would be impossible under normal conditions.

The colored views on this page only partly show the fantastic beauty and glory of the IRIS, *Queen of The Springtime*. The Iris is an aristocrat... its stately beauty is impressive, no matter where it is planted. It is one of the hardiest perennial plants and thrives with very little attention. Iris rapidly increase. One Iris increases to four the second year, sixteen the third year, sixty-four the fourth year, etc. They are appropriate to plant anywhere. It is a most unusual flower for cutting. In vases, alone, or with other flowers, they are marvelous. Many of the varieties are as sweet scented as roses and lilacs. The fragrance of Iris is most pleasing. The happiness, the satisfaction and the success you will have with this planting of Iris cannot be measured in terms of dollars and cents, yet I am offering you 22 of the most outstanding varieties for only \$2, prepaid, while my stock lasts.
